ABOUT THE EVENT

In the summer of 2024, Nathan, Finn, Rina, and Megan completed a canoe expedition down the Teslin and Yukon Rivers from Johnson's Crossing, Yukon Territory to Circle, Alaska. This 16-day, 1200km journey took them through some of the most spectacular country in North America and taught them invaluable lessons about river tripping, expedition logistics, and the benefits of a tightly fitting cocktail dress. Join Nathan (and maybe the rest of the gang) for an evening of stories, lessons learned, and inspiration.

ABOUT SPEAKER

Nathan is an adventurer, guide, and educator from North Vancouver in Squamish, Musqueam, and Tsleil-Waututh Nation territory. For as long as he can remember, he's been drawn to adventure - first to the end of the neighborhood, then into the North Shore mountains, and finally out onto the Salish Sea. In the spring of 2019, he embarked on his first 'big' personal expedition - around Vancouver Island in sea kayaks. Ever since then, he paddled to Alaska with his high school friend Sanesh and has now completed his third expedition down the Yukon River with Finn, Rina, and Megan.
